Most Beautiful Home in England.

Artists say that the most beautiful home in England is that of Alma Tadema, R. A. Its most remarkable feature is the wall of the drawing-room, which is paneled with tall, slim pictures, each of them by a different painter—Leighton, Boughton, Margent Whistler and a score of artist friends each contributing to this remarkable decoration. Another interesting feature is the oak and ivory piano, on the inside lid of which are inscribed the autographs of the most celebrated singers and musicians in the world.

A Napoleonic Myth Destroyed.

Legend tells how Napoleon, while Moscow was in flames, found time to draw up a decree organizing the Theater Francaise. The story is not true. The French national archives have recently been overhauled, and it seems that Napoleon was in Poland when he received the decree, ready to be signed. He there signed it, and sent it back to Paris, but in the margin wrote the following: "To be forwarded when the army will be at Moscow. It is his majesty's intention that the decree should be dated from that town."

HONOLULU, April 21, 1896:

MR. C. W. MACFARLANE:—It affords me pleasure to recommend, to any one whose hair
is falling out, the use of DR. POTTIE'S HAIR OIL. My hair was coming out at such
a rate as led me to believe that I would soon become bald. After using the oil for five weeks
this ceased entirely; none whatever is now falling out. I consider it the best and only
worthy remedy for this trouble and also recommend it as a stimulant to new growth.

Yours truly, J. B. DANIELS.

Is the disinfectant that the world
is talking about. In the United
States its merits are becoming
known. The people are using it.
Purifine possesses many points in
its favor over other preparations.
It is odorless and in employing it
as a disinfecting agent, does not
create another odor as offensive as
that which it subdues. Non-
poisonous too. That's an advan-
tage. It is also a powerful disinfectant,
servants misunderstand; then there's
trouble. Someone is poisoned.

Those who use it speak its praise
in every corner. It is the one
from the Department of Medicine
in the University of Michigan.

"We use Purifine and find it very
good for disinfecting and
deodorizing. It is a powerful
disinfectant and is used about
subjects for dissection."
W. A. CAMPBELL,
